

Back in the Black...

Fall '09

With so many people in the red, we believe the best place to be is in the BLACK. As a result, effective immediately we are announcing a 20% savings on all black pieces in the Carlisle Collection Fall line.

There is no denying that we are living in challenging economic times. Today, more than ever, we must make smart choices in how we spend our money. Both by necessity and by design there is a thirst to get back to the fundamentals in our lives - from our finances to our schedules to our food - even our fashions.

When it comes to fashion, nothing is more fundamental than the color black. It is the anchor color of every wardrobe, the one color that is entirely appropriate—even elegant—in every situation. Black knows no bulls or bears. Other colors may come and go. Black endures.

In reducing the retails on all black pieces in the Carlisle Fall collection a full 20%, we want to offer you, our loyal clients, a positive fashion statement, and financial statement as well. It is Carlisle's way of helping you keep both your wardrobes - and your budgets - in the black.

The original retail prices are on the left under each style. The new Back to Black prices are to the right. (*rounded up)
